Gaming Headphones Havit H2040d (Black)
Gaming Headphones Havit H2040d (Black)

Havit H2040d gaming headphones

Set out to conquer the virtual world with the Havit H2042d-B on your ears! The gaming headphones provide deep and immersive sound that will transport you to the heart of the action. The omnidirectional microphone allows for clear team communication during gameplay, while the soft ear cups and adjustable design ensure comfort, even during long gaming sessions. Dynamic RGB backlighting gives the headphones a unique character while creating a special atmosphere during gameplay.

Increase your immersion level

With powerful 50mm drivers, the Havit H2040d headphones deliver sound with the incredible depth and clarity you need to completely immerse yourself in the world of gaming. With a wide frequency response range of 20Hz to 20kHz, you'll hear every detail of the sound, allowing you to react faster to your opponents' movements.

Free communication with gamers

The Havit H2040d will allow you to have even better team communication during gameplay! The headphones feature an omnidirectional microphone that accurately captures your voice from different directions, eliminating unwanted ambient sounds. This means your messages will always be clear, and teamwork and in-game communication will be more effective than ever before.

Comfort at the highest level

□Manufacturer

Havit H2040d headphones combine excellent sound with comfort. Their ergonomic design makes them fit perfectly on your head, and the adjustable headband allows you to adjust them to your head size. Protein leather earcups gently wrap around your ears, providing excellent isolation from outside sounds. All this means you can enjoy maximum comfort, even during long gaming sessions.
