

Solar panel for SwitchBot Curtain 3

Solar panel for SwitchBot Curtain 3

Ref: 850046603518

Solar Panel for SwitchBot Curtain 3

The SwitchBot solar panel is dedicated to the SwitchBot Curtain 3 curtain system and provides reliable, eco-friendly power through the use of solar energy. It stands out with double charging efficiency even in low light conditions. Easy installation, intuitive operation, and the intelligent adaptation to lighting conditions are just some of the advantages that make this product an ideal solution for a modern home.

Uninterrupted, Eco-Friendly Power

Enjoy the reliable operation of the SwitchBot Curtain 3 curtain system. The solar panel provides high charging efficiency even in unfavorable lighting conditions - just 3 hours of exposure to sunlight guarantee endless power supply. Thanks to the product's adaptation to local weather conditions and the time of day, it ensures more efficient charging. There is also the possibility of adjusting charging cycles to ensure the uninterrupted operation of Curtain 3.

Designed for SwitchBot Curtain 3

The product is compatible with the SwitchBot Curtain 3 U Rail, Rod, and newer versions. It guarantees high power conversion and stable output power. The solar panel also allows for a reduction in electricity bills and contributes to environmental protection, making it an excellent choice for those looking for a reliable and nature-friendly energy source.

Effortless Installation

The integrated bracket allows for direct connection of the solar panel to the SwitchBot curtain system, ensuring perfect alignment towards the sun. With the ability to adjust the panel's tilt angle towards the sunlight, you can easily adapt it to current conditions. The product's compact design allows for discreet integration with interior decor, providing both functionality and aesthetics.

Durability and Reliability in Any Conditions

The SwitchBot solar panel is made from high-quality ABS material with a UV-resistant coating, ensuring durability. The product is designed to work in extreme temperatures ranging from -20°C to 60°C and humidity ranging from 10% to 90% RH. As a result, it requires no maintenance and will serve you reliably for a long time.

Manufacturer

SwitchBot

Model

W3603400

Color

White

Material

ABS with UV-resistant coating

Dimensions

70.5 x 178.5 x 19.5 mm

Power Cable

USB-C

Configuration Requirements

Direct sunlight

Output

3.5 V 450 mA

Operating Temperature

From -20°C to 60°C

Operating Humidity

From 10% to 90% RH

Preço:

€ 23.51
