

SwitchBot Keypad

SwitchBot Keypad

Ref: 850037096077

SwitchBot Keypad lock keypad

The SwitchBot Keypad lock keypad is a convenient and secure solution that gives you full control over who can enter your home. It provides easy and quick access to the lock, without the need for keys, and its installation will not be a problem.

Open doors without keys

Forget about traditional keys! The SwitchBot keypad allows you to create your own unique PIN code for quick and secure access to your home. You no longer have to worry about losing your key or sharing it with others. You can also use a dedicated access card to open your door in one simple motion.

Reliable and durable

The accessory is ready to face different weather conditions! With an IP65 waterproof rating, you don't have to worry about damaging it in rain or snow. The operating temperature of -25°C to 66°C makes it suitable for use all year round, even in extreme conditions. What's more, the battery life of up to 2 years ensures long-lasting and reliable operation.
