

## Sluchátka 1MORE Penta driver P50 (černá)

Sluchátka 1MORE Penta driver P50 (černá)

Ref: 6933037203165

### 1MORE Penta driver P50 Wired In-Ear Headphones (Black)

Experience even more pleasure while listening to your favorite tunes with the 1MORE Penta driver P50 in-ear headphones. These headphones are equipped with 5 hybrid drivers, tuned by sound engineer Luca Bignardi. The high-quality sound achieved is certified with Hi-Res Audio. Additionally, the headphones feature a lightweight and ergonomic design, allowing you to enjoy high-quality sound for extended periods. They also come with a detachable MMCX cable.

#### Innovative Drivers

The 7mm DLC dynamic driver provides dynamic bass, resulting in exceptionally clear and realistic sound. Meanwhile, the 4 dedicated planar drivers handle ultra-high frequencies, extending the sound range up to an incredibly lifelike 40 kHz.

#### Hi-Res Quality

The 1MORE Penta driver P50 headphones have received the Hi-Res Audio certification, confirming their ability to reproduce the finest musical details with unmatched accuracy. The sound produced by them has been precisely tuned by engineer Luca Bignardi to provide an immersive sound experience while preserving tonal depth across the entire frequency range.

#### Advanced Design

The unique dual-magnetic construction enhances the magnetic field quality, allowing for the reproduction of more detailed and precise sound. This ensures that the 1MORE Penta driver P50 headphones deliver incredible sound clarity, enriching every music experience. Additionally, the classic black and gold combination adds a touch of elegance, complementing almost any style.

#### Additional Benefits

The 1MORE Penta driver P50 headphones are designed with optimal user comfort in mind. The ergonomically curved nozzles (45°) and soft, preformed ear hooks provide stability and comfort, even during prolonged use.

#### Convenient Control

The MEMS microphone allows for seamless communication during phone calls. Meanwhile, the 3 practical buttons enable you to switch between music and calls. Additionally, the gold-plated MMCX connector allows for easy detachment and provides unmatched flexibility and convenience. This allows you to quickly adapt the headphones to your needs and use various types of cables. The package also includes a Hi-Res USB-C to 3.5mm adapter.
