Tronsmart T7 Bluetooth Wireless Speaker (Pink)

From now on, music can accompany you everywhere. The Tronsmart T7 wireless speaker uses SoundPulse Audio technology, providing balanced and defined sound, and its IPX7 protection rating allows you to take the device on any adventure. The dedicated app allows you to personalize the sound, and with practical buttons, you can make phone calls, manage your music player, and much more! The device supports Bluetooth 5.3, guaranteeing a stable connection up to 18 meters away. Additionally, the LED lighting creates a unique atmosphere. A single charge provides up to 12 hours of work.

Sound that Fills the Space

Are you a true music lover and care about excellent sound quality? Tronsmart's proposal will certainly meet your expectations! The T7 speaker uses advanced SoundPulse technology based on a patented algorithm, ensuring balance, richness of details, and sound clarity. The combination of two high-frequency speakers and one low-frequency speaker efficiently generates three-dimensional sound, immersing you in music from all sides. Now every song will gain in quality, and you'll feel like you're listening to your favorite artists live.

Always Ready for Action

Let nothing stop you anymore. The T7 speaker stands out with its IPX7 waterproof rating, allowing you to enjoy your favorite music in any conditions—even during a beach picnic or in the shower. It also offers unique lighting effects. Get carried away by visual attractions with

4 impressive LED modes and discover new dimensions of sound with Tronsmart, your key to amazing music experiences!

Take Control with the App

Connect to the speaker using the Tronsmart app and gain full control over the sound. Customize the sound by adjusting various EQ modes such as SoundPulse, Deep Bass, or Classical, and control LED lighting effects. With the T7, every party and music gathering will become a real show!

Possibility to Connect 2 Speakers

Do you want to completely fill the space with stereo sound? The T7 speaker allows you to fulfill your dream with the True Wireless Stereo Pairing feature. It's simple—just pair two T7 speaker units, and you'll experience high-quality sound. Overwhelming bass, crystal-clear high tones, and deep low sounds will take you on a musical journey you won't forget!

Designed for Your Comfort

The T7 speaker is designed with your comfort in mind. Practical buttons allow smooth scrolling of songs, answering, ending, or rejecting incoming calls, and activating the voice assistant. The dial allows you to precisely adjust the sound level, and by turning it counterclockwise, you can quickly and easily lower the volume. The device supports a stable Bluetooth 5.3 connection up to 18 meters away, and with the TF card slot, you can also enjoy your favorite songs directly from a card. Additionally, the automatic power-off function after 10 minutes of inactivity saves battery power, ensuring longer playback time.

Music Without Boundaries

The T7 speaker is an exceptionally durable companion for music. Thanks to a 700mAh battery, you can enjoy music for up to 12 hours (when using LED lighting) or 7 hours (when the lighting is off). This is a long enough time to provide audio entertainment for a whole picnic, weekend getaway, or a long journey. Charging the device takes about 3 hours. A colorful indicator will inform you about its status.
