

## Air conditioning/heat pump smart controller Sensibo Sky (grey)

Ref: 7290016037098

Air conditioning/heat pump smart controller Sensibo Sky (grey)

### Intelligent Sensibo Sky Grey Air Conditioning/Heat Pump Controller

Sensibo Sky, a modern air conditioning and heat pump controller, is the perfect solution for those seeking practical, effective, and comfortable solutions. This sleek controller connects to Wi-Fi, offering not only full control over your air conditioning from anywhere but also energy savings, customization to user needs, and integration with popular voice assistants.

### Full Control and Convenience

Sensibo Sky provides complete control over your air conditioning, allowing access to all modes, fan levels, and LED lighting. With the mobile app, users can easily manage air conditioning settings from anywhere.

### Energy Savings

Sensibo Sky can save up to 40% of energy. Thanks to intelligent algorithms and the Climate React feature, the device automatically adjusts the temperature, ensuring energy efficiency without compromising comfort.

### Geofencing for Smart Adaptation

Geofencing is a feature that uses geolocation to automatically adjust the temperature based on the user's proximity to home. This intelligent solution ensures that the home is always comfortably heated or cooled as the user approaches.

#### Monitoring and Activity Logs

Sensibo Sky offers daily charts and logs that track temperature, humidity, and user activity. This data helps optimize settings for maximum comfort and efficiency.

#### Intelligent Automation

The controller responds to schedules and geofencing, automatically adjusting air conditioning settings, resulting in maximum comfort and energy savings. The Pure Boost feature allows temporarily increasing cooling or heating power, ensuring quick comfort in situations requiring an immediate response.

#### Key Features

Sensibo Sky offers filter cleaning reminders, contributing to improved device performance, longevity, and indoor air quality. Collaborating with voice assistants such as Google Home, Amazon Alexa, Apple Siri, SmartThings, IFTTT, and an open API, Sensibo Sky becomes an integral part of a smart home, adapting to user needs and preferences.

Brand Sensibo Model Sky Color Grey Connectivity Wi-Fi 802.11 b/g/n @ 2.4GHz, DHCP or static IP addressing, SSL encryption Dimensions 82 x 55 x 17mm Sensors High-precision temperature and humidity sensors, universal infrared receiver Voice Assistants Google Home, Amazon Alexa, Apple Siri, SmartThings, IFTTT, API Input 5V - 1A via microUSB Operating Voltage 110-240V Open API Yes
