

## Air conditioning/heat pump smart controller Sensibo Air Pro

Ref: 7290016037258

Air conditioning/heat pump smart controller Sensibo Air Pro

### Intelligent Air Conditioning/Heat Pump Controller - Sensibo Air Pro

Are you wondering how to make your interior more comfortable, economical, and intelligent? Sensibo Air Pro is the answer to your needs. Designed with ease of installation and advanced features in mind, this intelligent air conditioning/heat pump controller will make your life easier.

### Incredibly Simple Installation in Just One Minute

Starting right from the beginning, Sensibo Air Pro stands out with its incredibly simple installation. It only takes one minute to connect and start using it. It's a fast and hassle-free solution that allows you to enjoy comfort right away.

### Clean Air with PureBoost Technology

Sensibo Air Pro also features PureBoost technology. Sensibo Air Pro has built-in sensors that monitor CO2 and TVOC levels in the air. When it detects pollutants, it communicates with other Sensibo devices, activating the AC fan or Sensibo Pure air purifier to ensure air quality in your environment.

### Integration with Your Favorite Voice Assistants

Sensibo Air Pro works with Amazon Echo, Google Home, and Apple HomeKit. This means you can control the temperature or monitor air

quality using your voice. It's simple, convenient, and always under your control.

#### Full Control, Energy Savings, and Climate Triggering

Sensibo Air Pro provides full control of your air conditioning from anywhere. Manage modes, fan levels, LED lighting, and many other parameters. Additionally, with 7-day schedules, Climate React, and Geo-fencing, you can save up to 40% on energy and enjoy excellent climate comfort.

#### Package Contents

Controller x 1

Power supply x 1

Double-sided tape x 1
