Esperanza EA147W Notebook USB LED lamp (white)

USB notebook LED lamp Esperanza EA147W (white)

Esperanza EA147W USB LED Notebook Lamp is an excellent choice for anyone who values convenience and efficiency at work. Thanks to this lamp, working in the evening or on the go becomes much easier and comfortable. It is ideal for those working on notebooks and desktops, offering an even and soft light that does not tire the eyes. A flexible cord, low power consumption and powerbank compatibility are just some of the advantages of this light. In addition, its compact size and stylish white color make it fit perfectly into any work environment.

Flexible cord - versatile lighting

A key feature of the Esperanza EA147W LED lamp is its flexible cord. It allows you to easily and precisely position the lamp at any angle, providing perfect illumination for your keyboard, documents or workspace. This functionality makes the lamp extremely useful in a variety of conditions, from the office to a secluded corner at home.

Gentle and even light - protection for the eyes

One of the most important aspects of any work lamp is the quality of light. Esperanza EA147W uses 6 LEDs, which provide a gentle and even light. As a result, working in dimly lit rooms or at night becomes less tiring for the eyes, which is crucial for maintaining good vision and overall user comfort.

Low power consumption and powerbank compatibility

For people who travel frequently, mobility and reliability of accessories are important. The Esperanza EA147W lamp features low power consumption, which is important when using battery-powered devices. In addition, the ability to work with powerbanks makes it an ideal choice for people who work in various places and conditions without access to a constant power source.
