Esperanza EGM201G wired gaming mouse (green)

Esperanza EGM201G is a wired gaming mouse that combines professionalism, functionality and ergonomic design. Created specifically for gamers, it not only offers precise tracking thanks to its advanced optical sensor, but also provides comfort even during long hours of gaming sessions. Its unique green color adds a touch of style, while its solid construction with reinforced cable ensures durability and reliability. Additional features, such as "Next" and "Previous" buttons and a special "Double Click" key, make navigation easier and more efficient for gaming and Internet browsing.

Precision optical sensor

A key feature of the Esperanza EGM201G is its precision optical sensor, offering switchable resolution between 800 and 2400 DPI. This feature allows gamers to perfectly adjust the sensitivity of the mouse to their individual preferences and type of game, which is invaluable in fast-paced and demanding titles where precision of movement is crucial.

Ergonomic design

Esperanza EGM201G is distinguished by its ergonomic shape, which guarantees comfort of use even during long gaming sessions. The proper contouring of the mouse makes it fit perfectly in the hand, preventing fatigue and increasing overall comfort. As a result, gamers

can focus on the game without worrying about discomfort.

Functional additional buttons

The Esperanza EGM201G gaming mouse is equipped with additional "Next" and "Previous" side buttons, which significantly facilitate navigation in games and other applications. The "Double Click" function allows quick double-clicking without having to manually click twice, which is useful in many gaming scenarios and more.
