Esperanza EH187K Wireless Earbuds (black)

Esperanza EH187K in-ear wireless headphones (black)

The Esperanza EH187K is a high-quality in-ear wireless headphones that combine convenience of use, ergonomic design and advanced Bluetooth technology. These lightweight and stylish headphones in black are an ideal choice for people who value freedom of movement, comfort and sound quality during long journeys or everyday use.

Ergonomic design and comfortable use

A key feature of the Esperanza EH187K is their ergonomic shape, which fits perfectly in the ear. Thanks to this, the headphones provide not only comfort, but also stability when wearing them, which is especially important when moving, such as when running or walking fast. In addition, the headphones' light weight of just 20 grams makes them almost imperceptible to the user.

Advanced connectivity and control

The Esperanza EH187K uses Bluetooth 4.2 technology, providing reliable connectivity over a distance of up to 10 meters. With Bluetooth profiles such as A2DP, AVRCP, HFP, HSP, the headphones guarantee compatibility with a variety of devices. In addition, the in-line remote control with a sensitive microphone allows you to easily control the volume and answer and end phone calls without having to reach for your phone.

### Durable battery and fast charging

One of the most important features of the Esperanza EH187K headphones is its long-lasting battery. The 60mAh lithium-polymer battery provides about 3.5 hours of music playback and about 4.5 hours of talk time. This makes them ideal companions for long trips or busy days. Plus, simple charging with the included microUSB cable and 5V charging voltage make the headphones always ready for use.
