Esperanza EM102R Wired Mouse (red)

The Esperanza EM102R wired mouse is the perfect tool for those looking for a practical and convenient solution for everyday computer work. Designed for comfortable use on desktop and notebook computers, this optical mouse combines advanced technology with an elegant red finish. Equipped with a quiet scroll wheel and a special rubber coating on the elements in contact with the hand, the EM102R provides exceptional comfort while being an extremely practical and pleasant tool for everyday use.

Comfortable and quiet operation

Jednym z kluczowych atutów myszki Esperanza EM102R jest jej cicha rolka przewijania, która pozwala na bezproblemowe i komfortowe użytkowanie, niezależnie od otoczenia. Specjalna gumowa powłoka na elementach stykających się z dłonią nie tylko zwiększa wygodę, ale także zapewnia pewny chwyt, co jest niezwykle ważne podczas długotrwałej pracy z komputerem. Te funkcje sprawiają, że EM102R to doskonały wybór dla osób, które cenią sobie ciszę i komfort podczas pracy.

Illumination for easy work in the dark

The Esperanza EM102R mouse is also distinguished by a subtle glow coming from the window located above the roller. This subtle illumination not only adds to the stylish look of the device, but also makes it easier to work in low-light conditions without glaring. This feature is especially useful for those working late at night or in dimly lit rooms.

Ergonomic shape for comfort

The ergonomics of the EM102R mouse is another aspect that sets it apart from other devices of its kind. Its shape was designed to fit perfectly in the hand, preventing fatigue even during long hours of work. This feature makes it an ideal choice for users who spend long hours at the computer, both at work and at home.
