Esperanza Titanium TK102 Wired Keyboard

The Esperanza Titanium TK102 is a functional wired keyboard designed for everyday use. Combining simplicity with essential features, this keyboard is ideal for PC and Mac users who are looking for a comfortable and durable work tool. Its core features, such as its ergonomic shape, high build quality and compatibility with various operating systems, make it a solid choice for the home or office.

Ergonomic shape

The ergonomics of the Esperanza TK102 keyboard helps prevent hand fatigue while typing. Its thoughtful design and the flexibility of the keys allow comfortable use for extended periods of time, which is important for those who spend many hours typing.

Durability of key prints

The TK102 keyboard uses UV technology to print letters and symbols, which ensures that they are resistant to abrasion. This ensures that the keyboard remains legible and aesthetically pleasing for a long time, even with regular use.

Compatibility with multiple systems

This keyboard is compatible with Windows XP, VISTA, 7, 8 and 10, making it a versatile choice for different users. The length of the cable (0.8m) provides enough freedom to place the keyboard according to the user's needs.
