Esperanza TM124K Titanium Wired mouse (black)

Esperanza TM124K Titanium wired mouse (black)

Esperanza TM124K Titanium is a wired mouse that will make working at the computer even easier. Equipped with a high-precision optical sensor with a DPI resolution of 1000, it guarantees excellent control over cursor movement. Thanks to its connection via a USB-C cable, it is compatible with both laptops and desktops.

Ergonomic design for your comfort

The TM124K Titanium mouse was created with your comfort in mind. Its ergonomic shape provides a perfect fit for your hand, which allows for natural hand positioning and minimizes fatigue, even during prolonged use. It's a solution that not only takes care of your health, but also makes using the mouse a real pleasure.

User-friendly

Operating the mouse will not be a problem for you! Thanks to Plug & Play technology, you can simply plug it into the USB-C port and start using it without the unnecessary complications of installing drivers. This saves you time and guarantees that you'll be ready to work in no time. What's more, it features a silent scroll wheel, which means browsing the web or documents is done in complete peace and quiet, without disturbing your surroundings.
