Power Strip GaN McDodo CH-4620 EU 70W, 2x USB-C, 1x USB (black)

Power Strip GaN McDodo CH-4620 EU 70W, 2x USB-C, 1x USB (black)
Keep your desk organized and enjoy convenient charging or powering of your devices. The McDodo CH-4620 power strip is equipped with 3 ports (2x USB-C, 1x USB-A) and an AC socket, allowing you to connect up to 4 devices simultaneously. The product also ensures user safety and stands out with its lightweight, compact design - it won't take up too much valuable space. Moreover, with a power output of 70W, you can successfully use it to charge laptops.

Impressive Capabilities
Don't wait too long for your devices to be ready for action again. The USB-C ports of the power strip offer a maximum output power of 70W. This means you can quickly charge your smartphone, tablet, portable gaming console, and even a laptop in no time. In turn, the AC socket of the CH-4620 model allows you to power most popular devices with a power rating below 2200W - it will work, for example, with monitors, projectors, fans, kettles, and more. Furthermore, the USB-C ports of the power strip support fast charging standards such as PD2.0, PD3.0, QC3.0, QC4.0, FCP, Apple 2.4A, Samsung AFC, and BC1.2, while the USB-A port supports QC2.0, QC3.0, FCP, SCP, Apple 2.4A, Samsung AFC, and BC1.2.

Enjoy Desk Organization
The McDodo CH-4620 power strip allows you to connect up to 4 devices simultaneously, so you can better organize your desk space and

keep it tidy. It also features a convenient, compact design with dimensions of only about 120 x 51.4 x 47.7 mm. This means it won't take up too much space, and transporting it won't be a problem.

Safety First
Thanks to protection against atmospheric discharges, you can use the power strip without worries during a storm. The CH-4620 model is also protected against high voltage, overheating, short circuits, overcurrent, and more. An additional advantage of the product is the use of advanced GaN technology, which ensures greater efficiency and safety of use while simultaneously reducing its size.

Enhanced Design
The power strip's housing is made of durable, flame-retardant PC material, which translates into its durability and resistance to damage. The product is also equipped with 4 silicone pads, allowing you to securely place it on a table or desk without worrying about it slipping. Rest assured that it won't move! The design of the socket is also well-thought-out, preventing the insertion of fingers or other objects - you can safely use the power strip in places where children are present. Additionally, the 1.5-meter-long cable provides greater flexibility.
