Portable 2-in-1 Mosquito Repellent Flextail Max Repel S (grey)

Portable 2-in-1 Mosquito Repellent Flextail Max Repel S (Gray)

The portable mosquito repellent Flextail Max Repel S is a reliable companion for camping, challenging outdoor conditions, and home use. This practical device combines durability, functionality, and versatility, offering effective protection against mosquitoes. Equipped with a silicone case, it is resistant to drops and, with two repellent modes and the ability to function as a power bank, it is suitable for both travel and home use.

Drop Resistance

Thanks to its silicone protective case, the Flextail Max Repel S is drop-resistant from heights of up to 1.2 meters. This feature provides peace of mind for users during travel and outdoor activities where the risk of accidental drops is higher. Its sturdy construction ensures that the device remains functional and reliable even in challenging conditions.

Two Repellent Modes

The practicality of this mosquito repellent is evident in its two available modes: camping and outdoor. The camping mode offers 13 hours of operation and a range of up to 3 meters, making it perfect for indoor use. On the other hand, the outdoor mode is designed for outdoor use due to its larger range of approximately 9 meters, ideal for wide, open spaces. In this mode, the device can operate for 7 hours.

Rapid Heating

The Flextail Max Repel S impresses with its ability to heat up quickly. It reaches a temperature of 110 degrees Celsius in just 50 seconds, which is crucial during unexpected encounters with mosquitoes. In the most efficient mode, the device can even heat up to 165 degrees Celsius, ensuring maximum effectiveness in repelling insects.

Power Bank

In addition to its basic repellent functions, the Flextail Max Repel S can also serve as a power bank. Its 9600mAh battery capacity allows for charging mobile devices, which is invaluable during long trips where access to electricity is limited. This feature significantly enhances the device's practicality.

Waterproof and Versatile

With an IP65 waterproof rating, the Flextail Max Repel S can be used in various weather conditions. Its gray housing also fits into a modern design, suitable for many outdoor gear. Flextail Max Repel S is a perfect combination of functionality and style, ideal for any outdoor adventure enthusiast.
