

## Summit PolarPro Landscape KIT

Summit PolarPro Landscape KIT

Ref: 817465023792

### Unforgettable experience

The Summit Landscape kit from the PolarPro brand surprises not only with perfectly matched equipment for photography enthusiasts, the accessories are also made of the highest quality materials. For those who love a challenge and are not afraid of adventure in the wilderness - this kit is ideal, proving itself even in the toughest conditions.

### Reliable components

#### Core

The aluminium construction has been created for professional photographers working in the field, for whom product reliability and long life are very important. The core features a filter lock, hood clip, tool-free mounting options and an integrated CP socket with easily accessible controls.

#### Threaded plates

Permit free 360° rotation of currently installed filters in the system.

#### Cap

Reduces light scattering and "Ghosting" to provide finer detail in a composition.

#### Circular polarizer

Aluminium border prevents the filter from being fingered and protects it from damage. Reduces glare through which colours blur and are not clear .

#### ND filters

Reduce light on overexposure of the scheme. Aluminium borders prevent the filter from burning and protect it from damage. Features 16 layers of coating.

#### Delicate gradients

Balances exposure in strong lighting to increase dynamic range. Equipped with Quartz glass.

#### Photo bag

Safety from falls and protection of kit accessories. The bag is small in size, you can easily take it on a long outdoor trip - the equipment packed in it does not weigh much.

#### Multimedia

##### Included:

Accessories
