

Headlight Warsun H620, 700/920lm, 3x18650, USB-C

Ref: 6976337900754

Headlight Warsun H620, 700/920lm, 3x18650, USB-C

Warsun H620 Headlamp, 950 lm, 3x18650, USB-C

The Warsun H620 headlamp is a practical accessory that will prove useful in almost any situation. It is equipped with a P50 diode, which generates light with a brightness of 950 lumens. Moreover, it stands out with its durable construction, so you can use it in adverse weather conditions. Whether you need light during a night hike or need to perform renovation work in poorly lit rooms, the lamp will meet your expectations.

Long Operating Time

Powered by three 18650 batteries with a total capacity of 6600 mAh, the H620 lamp operates for about 4 - 10 h on a single charge. This means that you can use it during long trips without worrying about discharging. Meanwhile, charging the device will take about 6 h.

Solid Construction

The Warsun H620 is made from a durable alloy of aluminum and ABS, making it resistant to falls from a height of up to 1 meter. You can use it without worries in difficult field conditions. Additionally, it is water-resistant with an IPX5 rating, making it an excellent choice for rainy days.

User-Friendly

The Warsun H620 also stands out with its telescopic design, which allows you to adjust the lighting angle to your needs. Additionally, it is equipped with a motion sensor, allowing you to maintain full control over the lighting in any situation – just bring your hand closer to turn it on. It also offers 2 straps for greater stability, and thanks to the adjustable features, you can adapt it to your own needs.
