Pet grooming kit HomeRunPet HC15

Pet grooming kit HomeRunPet HC15

# HomeRunPet HC15 Pet Fur Care Kit

HomeRunPet HC15 is a versatile pet fur care kit designed for animals such as dogs and cats. Equipped with numerous attachments and brushes, this kit provides pet owners with a wide range of options for trimming, grooming, and brushing fur. Additionally, it features a silicone attachment for giving your pet a relaxing massage.

# **Quiet Operation**

Thanks to its very quiet operation at just 45dB, both the pet owner and the pet can relax and strengthen their bond during the massage with the silicone brush. The two-meter-long hose allows for comfortable positioning for both the pet and the owner.

# High Performance

The HomeRunPet HC15 features a pure copper motor capable of generating suction power of up to 12,000Pa, effectively removing stubborn fur. The device offers three operating modes: Gentle, Standard, and Intensive (for cleaning).

### Spacious Fur Container

To reduce the frequency of emptying the container, it has a capacity of 1.85 liters. Depending on the size of the pet, the density and type of fur, as well as the degree of shedding, this capacity allows for one to several grooming sessions. The container is made of

smooth-finish plastic with detachable components, making it easy and quick to clean.

#### Say Goodbye to Shedding Nightmares

The HomeRunPet HC15 kit includes various brushes that, when attached to the vacuum, allow for continuous brushing of the pet and suction of the collected fur into the container. By pressing the gray button on the brush head, its bristles retract into the brush, automatically releasing tangled fur. This is an incredibly convenient solution, especially for pet owners dealing with heavy shedding.

### Not Just Pet Brushing

The kit also includes a lint brush that enables quick and easy removal of lint from upholstery, carpets, or clothing without leaving traces. These lint and fur particles are also directly suctioned into the vacuum, eliminating the need to manually remove fur from the brush. For cleaning tight spaces, a long nozzle is included, making it easy to vacuum crevices in sofas, behind furniture, and more.

### **Precision Trimming**

The HomeRunPet HC15 features a trimmer that allows for easy fur trimming. With six included attachments measuring 3mm, 6mm, 9mm, 12mm, 16mm, and 19mm, pet owners can achieve the desired level of precision.
