

Wireless Gamepad NSW PXN-9607X HALL (yellow)

Wireless Gamepad NSW PXN-9607X HALL (yellow)

Ref: 6948052902849

Wireless controller / GamePad PXN-9607X NSW HALL (yellow).

Equip yourself with the functional PXN-9607X universal game controller. It is compatible with personal computers and the Nintendo Switch console. It has many useful features - such as NFC support or turbo mode, and a 6-axis gyroscope. It draws power from a powerful battery that provides up to 20 hours of use on a single charge.

Wider compatibility

The gamepad is compatible with Windows 7/8/10 and the Nintendo Switch console. So you can use it seamlessly to play on PC and console - without having to replace the controller. Connect it to your PC using a USB or Bluetooth cable (Steam platform games only) or to Nintendo Switch via Bluetooth and enjoy comfortable, smooth control.

Many useful features

The gamepad is characterized by the use of a number of practical modes and solutions. The Wake-up function allows you to restore operation from sleep mode with the press of any button. In addition, the Home button is able to wake up the Nintendo Switch console. What's more, you can also use the Turbo function.

More amenities

The controller is equipped with a 6-axis gyroscope, which allows it to work with Motion Control technology. In addition, it has 3 levels of vibration intensity. The NFC reading function is also an interesting convenience. Easily integrate your figure from the Nintendo world into the console - by applying it to the Gamepad (Amiibo).

Efficient power supply

The controller gets its power from a powerful 550 mAh lithium battery. It allows the device to operate for up to 20 hours on a single charge. You will restore power in about 2 hours. Thanks to this, the gamepad will accompany you during long gaming sessions without unnecessary interruptions.
