Ref: 5905316140608

Rockbros Polarized Cycling Glasses 10037

If you often ride your bike and enjoy active outdoor activities, make sure your eyes are always well protected. Polarized glasses from Rockbros are a must-have for any cyclist, mountain biker, fishing or mountaineering enthusiast. The glasses provide UV400 protection and hold firmly in place during fast riding. They are extremely lightweight, so you won't experience discomfort even during prolonged use. Among other things, the set comes with a goggle cord, which will increase the safety of using the product while riding.

An essential for active people

Do you want to improve your visibility while cycling? Are you concerned about greater comfort during your favorite activities? Then Rockbros brand glasses will be a great choice for you! Thanks to the polarization function, only vertical rays will be directed to your eyes, which will make your visibility improve, colors will be more saturated, and - most importantly - your eyes will not get red, teary or burning. Let yourself be comfortable and take care of your eyes!

Multifunctional

You will use Rockbros polarized glasses in many situations - while cycling, on a mountain trip, on a fishing trip or simply while driving. The glasses are windproof and provide UV400 protection, so you don't have to worry about the harmful effects of ultraviolet rays. Thanks to its well-thought-out design, the Rockbros product is extremely lightweight, stable in place, and very comfortable to use. You can freely

replace the included polarized glasses according to your preferences. In addition, you will gain accessories for storing your glasses.
