

Photochromic cycling glasses Rockbros 10172

Photochromic cycling glasses Rockbros 10172

Ref: 5905316140509

Rockbros photochromic cycling glasses 10172

Improve your visibility while cycling or driving! Rockbros photochromic glasses provide eye protection and clear vision in all weather conditions. The glasses adjust to light intensity and temperature, so they will effectively protect your eyes from UV radiation, sunlight and blue light. The set comes with corrective eyeglass frames that you can use at the same time with Rockbros glasses, as well as accessories for convenient storage of the product.

Effective eye protection

Eyeglasses by Rockbros will be great for cycling and car enthusiasts, or fans of climbing and fishing. The photochromic lenses provide effective UV400 protection and change tint depending on the level of light intensity, providing better visibility. The clear lenses are made of durable PC plastic, and the nose piece is adjustable, so you can easily adjust the glasses to your needs.

Attention to detail

Rockbros goggles feature great versatility and are a must-have for any sports enthusiast. Thanks to its well-thought-out design, the product is extremely lightweight, stable in place, and very comfortable to use. The set comes with corrective eyeglass frames, which you can comfortably use at the same time as the 10172. Take the glasses along for the ride and see how much comfort you will gain from the many features. For added convenience, the set comes with a case and pouch in which you can safely store the product.
