

Esperanza EGV300R 3D VR glasses for 3,5-6 inch smartphones

Ref: 5901299939284

Esperanza EGV300R 3D VR glasses for 3,5-6 inch smartphones

3D VR glasses for smartphones 3.5-6 inches Esperanza EGV300R

Ready for unforgettable adventures? Esperanza EGV300R glasses open the door to the fascinating world of 3D entertainment and virtual reality. They are compatible with most smartphones with both Android and iOS. Equipped with aspherical lenses, they provide an extremely realistic experience, and their refined design guarantees maximum comfort. A remote control is also included for easy control, allowing you to have full control over your virtual experience.

Virtual world at your fingertips

Indulge in maximum immersion and discover all the possibilities virtual reality has to offer! The glasses are equipped with aspherical lenses that provide an image free of any distortion, making every detail extremely realistic, transporting you into the virtual world in a way you have never experienced before. All of this is complemented by ventilation holes and cutouts on the sides, which allow you to connect EARPHONES and a smartphone charging cable.

Compatibility with your smartphone

Simple setup allows you to quickly start your adventure in the virtual world. All you need to do is download the appropriate apps from well-known stores such as the APP Store or Google Play Store, which are labeled VR or Google Cardboard, and then place your smartphone in the special case of the glasses. What's more, the Esperanza EGV300R are ready to work with a wide range of devices -

they work with most smartphones with screen sizes from 3.5" to 6".

Dreamlike comfort

The EGV300R glasses were created with your comfort in mind. The refined design of the glasses allows you to use them for long periods of time without feeling tired or uncomfortable. Flexible rubber straps securely keep the glasses on your head, even during more intense movements, and a special overlay made of high-quality artificial leather allows you to perfectly adjust the glasses to the shape of your face - you can even use them in combination with corrective glasses.
