Ionizing straightening hairbrush with infrared ray Kipozi EU-705G

Ionizing hair straightening brush with infrared Kipozi EU-705G.

Do you want to always enjoy a perfect and well-groomed hairstyle? Opt for the Kipozi ionizing straightening brush. With more than 10-million negative ions and an infrared function, it will take care of your hair's moisturization and also add shine. And that's not all! You will also save your time with it, as it combines a brush and a straightener.

Perfect hairstyle

With Kipozi you'll take care of your hairstyle like never before! With the ionizing brush, your hair will be stronger, will frizz less, and will regain its shine. It will also help keep your hair properly moisturized. From today you can enjoy professional equipment in your home!

The power of negative ions

The Kipozi Ionizing Hair Straightening Brush releases more than 10-million negative ions during use. This makes your hairstyle moisturized, and what's more, you can already forget about split ends! In addition, the infrared function will help repair damaged hair.

Save time

Save your time with the Kipozi straightening brush. It will be ready in as little as 30 seconds, and what's more, it's a combination of comb and straightener. It will allow you to make a beautiful hairstyle in no time! As a result, you will never be late anywhere again.

Comfort of use

The hair straightening brush is not only a functional device, but also a comfort of use. You can do your hairstyle at your convenience, as it is equipped with a long cord, measuring 2 meters in length. In addition, its power rating is as much as 50 watts. What's more, you can adjust its temperature to your preferences and needs in the range from 100°C to 230°C.

Safety

Kipozi device is a guarantee of safety. The straightening brush is designed to prevent burns if you accidentally touch it with your hand, and it won't burn your scalp either. You don't have to worry about forgetting to unplug it, as it is equipped with a smart switch.
