4-in-1 capsule coffee maker 1450W HiBREW H2A (white)

4-in-1 capsule coffee maker HiBREW H2A

A hot, aromatic espresso? Or a refreshing iced coffee? With the HiBREW H2A, your favourite beverage is easily prepared! It has a 19 bar pressure and comes with a 600ml water tank. It heats up quickly and maintains a stable temperature. It is compatible with various capsules and can also brew ground coffee. It ensures safety of use and is easy to operate.

Compatible with a wide range of possibilities

The coffee machine makes it easy to prepare your favourite coffee. The H2A is compatible with Nespresso and Dolce Gusto capsules. You can also use ESE pods and prepare ground coffee. You can also adjust the size of your drink by simply pressing and holding the button. So it's easy to make exactly the drink you like. A small, strong, stimulating espresso? Or a larger, slightly weaker, aromatic americano? The decision is yours!

Your recipe for iced coffee

Do you like iced coffee? No longer do you have to waste time and money on frequent trips to the coffee shop! The HiBREW H2A espresso machine makes hot and cold drinks alike. You can prepare iced coffee in 2 ways. Either add ice cubes to the water in the container, or simply pour very cold water into the machine. Once your coffee is ready, garnish it with whipped cream and other favorite toppings and

enjoy a delicious, refreshing drink!

19 bars for hot, aromatic coffee

With a pressure of up to 19 bar the coffee bean is at its best. Maximum flavour, velvety texture and a delightful aroma - your favourite beverage has never tasted better! What's more, thanks to the technological solutions used, the machine heats up very quickly and keeps warm stably. That way you can be sure your coffee will be hot and full of flavour.

Easy to use

Now you can prepare delicious, flavoursome coffee in the comfort of your own home. The H2A is extremely easy to operate. Simply fill the tank with water and then insert the capsule or ground coffee. Then all you have to do is select the desired beverage size! Do you want to prepare your coffee hot or cold? You can change modes quickly and conveniently with just one button. So little is needed to enjoy your favourite beverage!

Top quality design

The coffee machine also stands out for its stylish, modern design. It will be an elegant, yet functional decoration of your kitchen. The stainless steel, copper-plated handle is extremely durable and comfortable to use. The water tank of the device was created from excellent quality materials that do not contain harmful BPA.
