

Basecamp PolarPro VND KIT

Basecamp PolarPro VND KIT

Ref: 817465023822

PolarPro Basecamp VND KIT

PolarPro Basecamp is the lightest Matte box on the market. Its weight is only 298g. This makes it ideal for use with a gimbal or drone.

Fast installation

Basecamp was created for filming "on the go". Thanks to its design, mounting, dismounting or changing the configuration is done quickly and without any additional tools.

VND filters

With two adjustable VND filters 2-5 and 6-9 (not included), you'll get full control over the light without the constant need to change the filter.

Convenience

With the PolarPro Basecamp system, you can forget about different filter systems for all your lenses. You can easily mount the Basecamp system on multiple lenses, saving time and space when traveling.

Aluminum frames

The filters come with aluminum frames to help keep them from getting dirty during installation and replacement, making installation even faster and more efficient.
