

Car charger DJI Mavic Air 2 / Air 2s

Car charger DJI Mavic Air 2 / Air 2s

Ref: 6958265103391

To the rescue

The car charger for the DJI Mavic Air 2 is an accessory that is very useful when travelling. We can charge the batteries when there is no simple access to a power source. The charger provides an output of 35.6W and has an overheat protection function, and voltage drop protection, so charging is fast and it is 100% safe to use.

☐Charging temperature

☐5° to 40 °C

☐Input voltage

☐14 V

☐Output voltage

☐13.2 V 2.7 A or 12.6 V 2.7 A

☐Charging time

☐Approx. 1 hour and 40 minutes (temperature-dependent)
