

DJI Action 2 Front Touchscreen Module

Ref: 6941565919885

DJI Action 2 Front Touchscreen Module

DJI Action 2 Front Touchscreen Module

Enlarge the capabilities of your camera. When you connect this accessory to DJI Action 2, you will gain the ability to use 2 OLED touchscreens, freely switch between them and take fantastic selfies without much effort. Moreover, the battery life will be extended to up to 160 minutes. The Front Touchscreen Module also has 3 microphones and a micro SD card slot. It also supports 4-microphone Matrix Stereo system, Audio Zoom and Directional Audio. You can easily mount it on your camera with the magnetic mount. This is the perfect gear for vloggers! Note: the touchscreen module is not waterproof or dustproof - if you want to record underwater shots, use the Waterproof Case in addition.
