

DJI High-Bright Remote Monitor

DJI High-Bright Remote Monitor

DJI High-Bright Remote Monitor

The DJI High-Bright Remote Monitor features a 7-inch touchscreen with a wide colour gamut, 1500 nits of brightness and an integrated O3 Pro image transmission receiver for monitoring, recording and playback. The monitor works perfectly with Hand Grips, DJI Master Wheels, DJI Force Pro and the new DJI Three-Channel Follow Focus system offering remote focus control, precise gimbal control, start/stop recording and camera parameter modification. When used with the DJI Remote Monitor expansion board, HDMI and SDI signal outputs can be achieved. Mirror control mode, independent recording and playback, motion control or HDMI input monitoring - will be available in later updates. Note: Compatible with DJI Ronin 4D.

Included:

- High brightness remote monitor
- Transmission antenna 4x
- Tempered glass screen protector
- Remote monitor cover
- Case for remote monitor
- NP-F Battery Adapter
- WB37 smart battery
- WB37 charging hub (USB-C)
