Design & Drill See -Through Creative Workshop Learning Resources EI-4114

Learning Resources EI-4114 drill/driver toy with construction set (transparent).

The Learning Resources construction set is designed for children who are at least 3 years old. Thanks to the elements included in it, the child has the opportunity to both play and learn skills that will be useful in the future. The package includes, among other things, a transparent board on which the toddler can create constructions, a drill/driver, drills, screws, a screwdriver, a wrench and activity cards.

A great way to play

The toy is suitable for children aged 3 and older who are interested in building, tinkering and demonstrate creative thinking skills. The purpose of the set is to support the development of manual precision, mathematical basics and encourage self-expression.

Entertainment benefits

The development of manual skills strengthens the abilities needed to tie laces or hold a pencil. The Learning Resources construction set also supports the development of math skills by encouraging children to sort and match screws. In addition, the ability to copy patterns or create their own helps develop imagination and artistic skills.

Set includes:

Transparent board x1 Drill and screwdriver x1 Drills x3 Plastic screws in different colors (red, purple, green, blue and orange) x120 Hand

screwdriver x1Screw wrench x1Activity cards x10Guide x1
