MathLink Cubes Activity Set Learning Resources LSP 4286-UK

MathLink Cubes Activity Set Learning Resources LSP 4286-UK

The set of 100 math cubes by Learning Resources is designed to assist children aged 4 and above in learning and understanding basic mathematical concepts. Through play, students have the opportunity to refine their counting skills up to 100, grouping, pattern making, and sorting. The set also includes 15 double-sided activity cards and a guide.

Diverse Mathematical Concepts

Math cubes support a wide educational experience - from counting and grouping to more complex activities such as pattern making and sorting, promoting a deeper understanding of mathematics.

15 Activity Cards

With double-sided activity cards, children have the opportunity for organized learning with thorough instructions, which can enhance their cognitive skills and teach following directions and problem-solving.

Additional Benefits of Play

Arranging cubes promotes the development of motor skills and offers tactile, hands-on experience in exploring numbers and mathematical concepts. The cubes vary in colors, supporting visual learning and aiding in recognizing patterns and categories.

Included in the set:

Math cubes x100

Double-sided activity cards x15

Instruction guide x1
