

Design & Drill Robot Learning Resources EI-4127

Design & Drill Robot Learning Resources EI-4127

Ref: 5906168433009

Learning Resources EI-4127 robot plus screwdriver set.

Give your child a toy that will not only bring him a lot of fun, but also help him develop his creativity and manual skills. The Design and Drill Robot set by Learning Resources will be an excellent choice! It contains a small robot that can be decorated any way you want - 15 colorful screws and a sheet of stickers will allow it. Also included in the package is a convenient, kid-friendly screwdriver, with which the child will easily screw or unscrew selected screws. This is fantastic entertainment and room for imagination! In addition, the robot has removable hands and is movable for even more fun. The set is suitable for children aged 3 years and older.
