

## Zoomy 2.0 Handheld Digital Microscope (Blue) LER 4429-B

Ref: 5906168432682

Zoomy 2.0 Handheld Digital Microscope (Blue) LER 4429-B

Learning Resources LER 4429-B Zoomy 2.0 Portable Digital Microscope (Blue)

With the Zoomy 2.0 digital microscope, children from the age of 4 can explore the world around them with precision at a resolution of 640 x 480 pixels while transmitting images, and marvel at the resolution of 1600 x 1200 pixels when taking photos. The product provides up to 54x magnification, making it easier for elementary school students to analyze the structure of selected objects. The VGA CMOS sensor ensures a clear image, further enhanced by 8 LED lights. When the microscope is connected to a computer or interactive whiteboard, you can observe the preview on a large screen. The capture button allows you to transfer photos and videos to your chosen PC or MAC device. The set includes 2 interchangeable adapter heads.

Introduce Your Child to the World of Learning

With the Zoomy 2.0 microscope, a child has the opportunity to step into the role of a scientist, technologist, or engineer. This educational tool allows for exploring the world at a microscopic level with 54x magnification. Detailed observation of small objects develops analytical skills and interest in the details of the natural world.

High-Quality Image

The Zoomy 2.0 microscope utilizes a VGA CMOS sensor, providing a clear image at a resolution of 640 x 480 pixels. 8 LED lights respond to illumination, enhancing visibility. As a result, young scientists have the opportunity for in-depth observation of selected objects.

Additionally, it is possible to take photos at a resolution of 1600 x 1200 pixels. The set includes 2 adapter heads, facilitating experimentation and discovery.

#### An Essential Tool for Every Student

Learning Resources facilitates students in sharing their discoveries. The microscope can be connected to a computer or interactive whiteboard to present research results to peers. With the dedicated capture button, a child can capture and save images, further developing computer skills. Zoomy 2.0 is compatible with PC and MAC, and the included programming software makes installation and integration with educational systems easier.

#### Included in the Set:

Zoomy 2.0 Digital Microscope x1

USB Cable x1

Interchangeable Adapter Head x2

Installation Software x1

User Manual x1

Manufacturer

Learning Resources

Model

LER 4429-B

Intended for

Children aged 4 and above

Magnification

x54

Resolution

640 x 480 pixels (UXGA) while transmitting images / 1600 x 1200 pixels (VGA) when taking photos

Sensor

VGA CMOS

Lighting

8 LED lights

Compatibility

PC / MAC

Dimensions

6.5 x 6.5 cm

Color

Blue
