Edifier R1380DB speakers

Edifier R1380DB is an interesting combination of innovative sound quality and classic design. The professional speakers are equipped with state-of-the-art drivers that give a clear, balanced sound. And the wooden cabinet effectively minimizes acoustic resonance. Available optical, coaxial and line in ports allow you to connect most models. You can easily pair any equipment using Bluetooth 5.1 with aptX codec. The included remote control is responsible for convenient operation.

Full control over sound

Get instant access to the most important features. The Edifier speaker's side panel makes it incredibly easy to adjust basic settings. With just one movement, you can control volume, bass level, but also treble and bass, among other things. The included remote control guarantees you the freedom to turn the device on, switch songs and select the audio source. You can easily adjust the audio signal according to your expectations.

Digital chip

To see what makes these speakers impress with excellent audio quality, just take a look inside. The R1380DB uses a TI PCM9211 digital chip to ensure accurate sound reproduction. The built-in tweeter measures 25mm. The tweeters, as well as the midrange and bass drivers are responsible for great balance and precise sound processing. A class D amplifier with a total RMS output power of 42W will

provide an unforgettable musical experience.

Qualcomm Technology

With its wide compatibility, the R1380DB Speakers offer many connectivity options. The hardware is equipped with Line In, optical and coaxial ports. Free yourself from wires and any limitations with Bluetooth 5.1, the Qualcomm aptX codec is responsible for reliable wireless transmission. Choose the right way to connect your device to enjoy a smooth and stable transmission.

Unique image

Edifier speakers feature exceptional functionality while looking great. This is all through the wooden casing and stylish design. This results in an incredibly elegant, atmospheric character. They will certainly prove to be a tasteful addition to classically decorated interiors.
