Edifier R2000DB

The R2000DB speakers are a great combination of classic wooden design and innovative technological applications, responsible for high quality sound. Universal optical inputs mean you don't have to worry about connecting to most models. The included remote control makes it easy to operate from a short distance. Eagle Eye 25mm tweeters produce excellent, clear audio.

Compact size with deep interior

The 5-inch high-frequency driver is sure to deliver plenty of memorable musical experiences. The aluminum diaphragm and 1-inch driver are designed to transform midrange and bass tones, which balance tones accordingly. In addition, the Class-D amplifier incorporates digital signal processing (DSP) and dynamic signal control (DRC) technology. Marvel at the richness of detail while relaxing with an exciting movie, song or game.

Convenient operation

The R2000DB is equipped with a practical wireless remote control. In particular, it allows you to easily switch the source, change the volume level or select digital modes. With its help, you can mute an unwanted song with just one movement. What's more, the ergonomic design adapts to the shape of your hand without causing discomfort.

Exceptional sound quality

A set of Edifier speakers is a professional addition to computers and gaming consoles. They fit perfectly into any space, providing diverse functionality to suit individual lifestyles. The durable MDF material completely minimizes acoustic resonance. With the R2000DB speakers, you can enjoy a spectacular sound effect that completes the gaming mood.

Timeless image

Fine workmanship and classic character are a successful combination that will work well in a stylishly decorated room. The glossy wooden MDF cabinet fully eliminates acoustic resonance, clearing the transmission of unnecessary vibrations and noise. Connect the speakers to your turntable, TV, or laptop and immerse yourself in atmospheric, relaxing music.
