Speakers 2.0 Edifier R2850DB (black)

Ref: 6923520268740

Edifier R2850DB

With the versatile R2850DB speakers, you'll get a new and unforgettable experience when listening to your favorite songs. Connect them to your console, computer and TV using the built-in inputs and discover exceptional sound quality. The state-of-the-art Bluetooth 5.1 module also enables wireless connection. Maximum RMS power of 150W provides clear, well-balanced bass. A remote control is included for easy control from anywhere.

Innovative technologies

The Bluetooth 5.1 connection with Qualcomm aptX encoding is responsible for connecting the speakers to any device quickly and efficiently. It supports Android, Mac, or Windows among others. The absence of wires makes the comfort of use even more convenient, compared to the standard option. Give yourself an amazing experience while listening to your awaited album or watching an exciting movie.

Crystal clear sound

The 2.0 speaker system features a 0.75-inch tweeter and a 4-inch midrange driver. The total power of 150W together with the class D amplifier with DSP function are responsible for perfectly balanced audio signal, stable transmission and no delays at all. You can also connect an additional external subwoofer (not included) to further lower the sound.

Wide compatibility

The feature that is sure to impress in a universal kit is full compatibility. The variety of ports allows you to connect most current models, at the same time. Choose your audio source from the available Line in 1, Line in 2, coaxial and optical inputs, connect it to your equipment and immerse yourself in the magic of atmospheric songs.

Comfortable operation

The included remote control for remote control of the equipment is a tool that guarantees extremely convenient control of the most important functions. No matter where you are, with just a few movements, you can adjust the volume, change the order of songs or select the source of transmission. One of the speakers includes three knobs on the side panel that allow you to fine-tune the aforementioned functions.

Elegant finish

The Edifier professional speaker system features practical solutions in a classic cabinet. The glossy MDF gives a stylish vibe while completely eliminating acoustic resonance. Which means that the best quality will accompany even at maximum volume levels. The whole will prove to be an interesting addition to tastefully decorated rooms.
