

## Speakers 2.1 Edifier S351DB (black)

Speakers 2.1 Edifier S351DB (black)

Ref: 6923520267675

### Edifier S351DB

The Edifier speaker set is the perfect choice for anyone who dreams of unique aesthetics and perfect sounds. The whole thing doesn't take up too much space, so it will work well in the office as well as at home. With its innovative system, 8" diaphragm and titanium dome, it is the definition of a new generation. Edifier S351DB is a successful combination of 2.1 speakers with pleasant and detailed sound. Enjoy every detail while playing music, playing games or watching exciting movies.

### For those who value functionality

Most 2.1 systems include compact satellite speakers and make up for the muffled sound from the satellites with a subwoofer. The SD351DB offers both a massive subwoofer and fully capable speakers. Simply connect your playback source via Bluetooth, optical, coaxial or AUX ports with the speakers and indulge in the music magic. Bluetooth supports Qualcomm aptX technology, and the digital input supports sample rates up to 24bit/48kHz.

### Convenient operation from anywhere

No matter where you are - take full control of your playlist with the wireless remote control that lets you control the most important functions. It allows you to switch between optical, coaxial and Bluetooth inputs, among other things. Moreover, on the side panel of one speaker, there are three knobs that are responsible for bass power, treble and volume. When turned on, the unit indicates its operation

with a power light.

Small size with rich interior

Modern 2.1 active speaker technology ensures deep satisfaction with the sounds you get. The power of the 3.5-inch drivers provides smooth tonal transitions, while the 8-inch subwoofer is responsible for perfectly balancing the audio signal. The S351DB also supports DSP and DRC technology. Total RMS power is up to 150W. Discover crystal quality at the highest level.

Classic character

The Edifier S351DB speakers will work well in any stylish room. Improved, elegant, yet practical design is a great solution for demanding music enthusiasts. The MDF wooden cabinet concept allows hours of entertainment in almost any environment, eliminating unpleasant noises. The included remote control makes the equipment operation extremely comfortable.

Kit contents:
