Edifier R1280Ts

A subtle combination of retro appeal with a modern sense of sound quality. The Edifier R1280Ts speakers are designed for even the most demanding audiophiles. They have a total RMS power of 42 watts, and with 2 RCA ports, you can connect up to 2 devices to them simultaneously. With the built-in knobs you can precisely adjust the sound to your expectations. The included remote control makes it easy to operate the speakers.

Studio quality sound

The R1280Ts speakers guarantee a fantastic quality signal through which you achieve the best sound experience. Silk dome tweeter and 4-inch bass driver provide solid balance, surprising details and crystal clear audio. Stable RMS power output of up to 42 watts eliminates distortion, while the front-facing bass reflex port emphasizes bass performance. An additional output allows you to connect an external subwoofer (not included).

Comfort of use

On the side panel are knobs that allow you to adjust the most important functions accordingly. In an instant you can change not only the volume, but also the treble and bass. This way you can quickly emphasize what you like most in your favorite music genres. The speakers also come with a small remote control, which is used to remotely control basic settings. Among other things, it is responsible for

turning the speakers on, off and muting them from a short distance.

Dual RCA input

The R1280Ts offers an interesting option to conveniently connect your devices and discover an unforgettable musical entertainment experience. The RCA ports are ready to connect up to two pieces of equipment at one time. You no longer have to move your audio sources every time, search for the right cables and waste time switching them.

Classic remains in fashion

A sensible combination of functionality and aesthetics is a fully successful solution. Wooden speaker cabinet effectively minimizes acoustic resonance, thus eliminating unnecessary vibration and improving sound quality. Moreover, it is what makes the R1280Ts look so distinctive. With their elegant, stylish design, they can perfectly complement the decor of a tasteful interior, living room or study.
