Edifier A100 Active Speakers

Experience how great your favorite songs can sound. The Edifier A100 speakers are designed to deliver perfect Hi-Res certified sound quality. Multiple ports and Bluetooth 5.1 support allow you to connect to a wide range of equipment, either via cable or wirelessly. At the same time the devices look very elegant. The lacquered casing gives them a delightful, stylish character. In addition, you will find a remote control in the set for convenient use.

Stunning sound quality

Discover your favorite tunes in new and improved quality. Made of aluminum, the ribbon tweeter is equipped with a specially designed horn. The A100 speakers also have a 5-inch suspended woofer with an anodized aluminum cone. So you can enjoy perfectly balanced, detail-rich sound. Want more? The speakers also have an extra port that lets you connect an external subwoofer (not included).

Forget about distortion

Get rid of distortion and flat, poor quality sound. Edifier A100 speakers offer dynamic control that works with digital signal processing (DSP) technology. They also have a digital Class D amplifier and an advanced XMOS processor. All this has helped to deliver stunning, crystal-clear sound. Turn on your favorite playlist and let yourself be swept away by the magic of music!

Many connectivity options

Now you can easily connect the sound source of your choice to the speakers. The A100 are equipped with several ports such as AUX, PC, optical and USB. They are also compatible with a wide variety of devices. Want to be free from wires and have almost unlimited freedom? No problem - just connect to the speakers wirelessly! The A100 supports Bluetooth 5.1 for reliable, fast and stable transmission.

Modern design

Are you looking for speakers that not only provide you with the highest quality sound, but also perfectly complement the design of the selected room? The Edifier A100 are perfect for you! High-quality piano lacquer finish of the housing gives them a very elegant and modern character. Place them in your living room or study, for example, and get a functional yet stylish addition to your décor!
