

Speakers 2.0 Edifier R1100 (black)

Speakers 2.0 Edifier R1100 (black)

Ref: 6923520264278

Excellent sound with the Edifier R1100

Go for pristine sound that you'll appreciate right from the first listen. The classic black cubic design provides stability at even the deepest bass levels and blends seamlessly into any interior. You can easily adjust your preferences and ensure unforgettable musical experience. Dual RCA inputs allow you to connect to more than one device for even more possibilities.

Active Speaker System

The Edifier R1100 is a compact active speaker system with a total power output of 42W. The dual RCA input allows you to connect to multiple audio sources, the bass reflect port is responsible for good bass quality, and the volume, treble and bass controls allow you to adjust the sound to your preference. The MDF enclosure minimizes acoustic resonance and provides natural sound without distortion.

Unique enclosure

The Edifier R1000T4 speaker cabinet is made of 100% MDF (medium density fiberboard) which is completely proven in the market. The black color will perfectly complement any room, whether it's an office or an apartment. With a built-in amplifier, you don't need to connect them to any additional device.

Exceptional sound quality from Edifier

The Edifier R1100 is for all fans of clear, high quality sound. You'll rediscover a wealth of detail hidden in your favourite songs that you didn't notice before. It's easy to set your preferences, so you can get an unforgettable experience regardless of your favorite genre.
