Edifier MP260 Wireless Speaker

Are you looking for a versatile speaker that gives you great sound quality and plenty of useful features without taking up too much space on your table or shelf? The Edifier M260 is sure to meet your expectations! The device allows you to connect different audio sources in a variety of ways, such as via USB or wirelessly via Bluetooth 5.0. The 2.1 acoustic structure ensures an unforgettable musical experience, while the long-lasting battery ensures a long battery life. The speaker also offers an alarm clock function.

Play music the way you want

Plug the audio source of your choice into the speaker and enjoy your favorite songs in the highest quality. The MP260 supports TF cards, USB drives and devices with AUX interfaces. You can also connect it to your computer with a simple micro USB cable. This way you can not only play different songs, but also charge the speaker! Do you prefer to use wireless solutions? This is also possible - Bluetooth 5.0 provides a fast and stable transmission with a range of up to 30m.

Practical display with adjustable brightness

The speaker is equipped with a large, easy-to-read display that will provide you with some of the most important information. Now you can check the time or the battery level with just a glance! What's more, thanks to special sensors, the brightness of the screen is constantly adjusted to the environment. You can also turn off the display completely at the touch of a button - no need to worry about

too much bright light keeping you awake at night!

Try the alarm clock function

Have you ever overslept for work? Don't like ordinary, annoyingly loud alarm clocks? Edifier can help you solve similar problems! Just set the MP260 speaker to wake you up at a specific time. With its alarm clock function, you can get up, eat breakfast and get ready to leave the house with great music every morning. Waking up in the morning doesn't have to be unpleasant!

Excellent sound quality

Despite its small size, the MP260 speaker can deliver audio of the highest quality. The classic 2.1 acoustic structure with 2 4W tweeters and a 12W woofer allows to perfectly balance the highs, mids and lows, emphasizing the most interesting in them. Want more? Enjoy the stunning richness of detail guaranteed by the TAS5711 digital amplifier and rediscover your favourite tracks.

Fabulous ease of use

Experience how simple it can be to operate the speaker. The MP260's most important functions are conveniently accessed with buttons placed in easy-to-reach locations. For example, you can adjust the volume or switch tracks. You can also easily set the alarm clock. Moreover, the buttons are made of environmentally friendly silicone. They are incredibly pleasant to the touch and easy to the fingers, which makes the use of the MP260 even more comfortable.

Even hours of use on a single charge

Now your favorite songs can entertain you for as long as you want. The Edifier MP260 speakers are equipped with 2 2600mAh rechargeable batteries that allow you to play music for up to 7 hours on a single charge. In addition, an advanced management system and special overvoltage protection ensure safe use. Listen to the songs of your choice for a long time and fear nothing!

Timeless design

A successful combination of modern and classic? Edifier proves it is possible! The MP260 speaker is equipped with a wooden casing, which gives it an incredibly elegant character. Thanks to this, the device will perfectly complement any interior design. However, this is not the only advantage of this solution! Wooden casing minimizes acoustic resonance and dampens unnecessary vibration, so you can forget about the unpleasant crackling and creaking.
