Edifier P205 wired headphones

Enjoy superior sound quality when you listen to music, play games or talk on the phone. The Edifier P205 in-ear headphones feature dynamic 8mm drivers and deliver deep, emphasized bass. They're also extremely lightweight and comfortable. The built-in microphone lets you talk on the phone, and the cable-integrated remote provides convenient access to several useful functions.

Crystal clear sound

Dynamic 8mm drivers deliver clear, detail-rich sound. They let you enjoy enhanced bass and perfectly balanced midrange. All this means you can not only discover previously unknown details of your favorite songs, but also increase the immersion when you play games.

Conveniently talk on the phone

Now you can comfortably talk on the phone almost anywhere - not only at home, but also on the bus or in a crowded store. The headphones feature a high sensitivity omni-directional microphone that reliably captures your voice, giving you the confidence that your callers can hear you without any problem.

Built-in remote control

Experience how simple and convenient headphone operation can be. P205 has a remote control integrated into the cable so that all the

most important functions are always at your fingertips. For example, you can easily adjust the volume or answer the phone.

Ergonomic design

SP205 headphones are extremely lightweight and comfortable. They weigh just 11.2g and fit snugly in your ears. They don't fall out and provide unparalleled comfort. The included interchangeable eartips in 3 sizes (S, M, and L) allow you to customize them even more. The headphones also look stylish.
