gaming headphones Edifier HECATE G2 II (white)

Ref: 6923520240692

### Edifier G2 II gaming headphones

Enjoy dynamic gameplay and don't let your opponent take you by surprise. Edifier G2 II gaming headphones are equipped with 50-millimeter drivers that deliver crystal clear sound. The 7.1 surround sound guarantees an incredibly immersive experience, and the 6mm electret microphone allows you to communicate freely with other gamers. What's more, the colorful RGB backlighting gives the product a unique gaming feel.

### High-quality audio for deep immersion

Feel like the hero of your favorite title and become even more immersed in the game. The next-generation NdFeB driver with composite diaphragm delivers clear, high-resolution audio rich in detail. The headphones also offer stunning 7.1 surround sound so you can find your way around the game, locate enemies and anticipate their moves. With the Edifier G2 II, you'll be on your way to victory with ease!

### Tailored to the player's needs

Game for as long as you want and don't fear fatigue. The Edifier G2 II headphones feature a thoughtful, ergonomic design. They are incredibly lightweight and comfortable. The specially designed ear cups fit snugly around your ears, yet are soft enough to avoid uncomfortable pressure. If necessary, you can also easily detach and clean them, thus extending their life and preventing the multiplication of bacteria.

#### High-quality microphone - freely plan tactics with other players

If you enjoy online games, you surely know how important communication with other players can be. To help you communicate with other team members, the G2 II headphones feature an electret omnidirectional microphone with noise cancellation. Thanks to its adjustable design, you can easily adjust it to your needs. Don't need it at the moment? No problem! You can simply remove it at any time.

#### Gaming RGB backlighting

Get the headphones that perfectly match your style. The G2 II are equipped with enhanced colorful LED backlighting. The dynamic lighting effects are sure to appeal to many users. Complete your gaming zone with a functional yet stylish accessory and enjoy every game. Edifier gaming headphones will help you break new records!

#### Compatible with your equipment

No matter what equipment you're playing on - with Edifier you can almost always enjoy the highest quality sound. The G2 II headphones are compatible with most popular devices available on the market. They work perfectly not only with computers and laptops, but also with consoles such as PS4. Turn on your favorite game, put on your new headphones and set off to conquer another fantasy land!
