Edifier D12 Stereo Speaker

Excellent sound quality, simple operation and a classic, elegant design? It's possible! The Edifier D12 speaker is designed to give you an unforgettable musical experience. With 2 playback modes and knobs on the top panel, you can customize it to your needs, and the included remote control makes it convenient to operate remotely. The product is compatible with various audio sources, which you can connect via a wire or wireless Bluetooth 5.0.

Stunning sound

Despite its compact size, the D12 speaker delivers fantastic audio quality. A 0.75-inch silk tweeter and a 4-inch midrange and bass driver ensure perfect harmony and crystal clear sound. Furthermore, the front-facing reflex port offers a wider sound field and enhanced deep bass. But the surprises don't end there! The speaker is equipped with a line out function, which allows you to enjoy natural, distortion-free sound.

Various connection possibilities

With Edifier, you have the freedom of choice you want. The D12 lets you connect the audio sources of your choice in several ways. The built-in AUX and Line in ports give it compatibility with a wide variety of devices. You can also break free from cables and connect to the speaker wirelessly, giving you the freedom you dream of and making it easy for you to stay organized. The reliable Bluetooth 5.0

connection guarantees fast and stable transmission - delays and other signal problems are a thing of the past!

2 playback modes to choose from

This unique speaker is perfect for a variety of applications. Whether you're listening to music or watching a movie, Edifier will give you the highest quality sound and a unique immersive experience in any situation. Customize your speaker's performance by selecting from 2 available playback modes. Theater mode allows you to get even deeper into the story of the film you're watching and experience unforgettable emotions. Music mode will bring out the best in your favorite songs.

Enjoy convenient control over your audio

Edifier puts total control of sound in your hands. The knobs on the top panel of the speaker allow you to fine-tune not only the volume, but also the treble and bass. Use this ability to accentuate the best of your favorite music. But that's not all! It also comes with a handy remote control so you can conveniently adjust the volume, switch tracks, change modes and select audio sources. You don't have to get up from your chair every time anymore!

Improved design

Find out that a successful combination of modern technology and classic design is possible! The wooden enclosure of the Edifier D12 speaker looks really great and gives it a timeless, elegant character. It will be a fantastic addition to almost any setting. But that's not its only advantage! The use of wood housing helped to minimize acoustic resonance, so you can listen to music as loud as you want, without fear of unpleasant noises.
