Edifier P100X Speaker

Discover your favorite songs in a new, better quality. The Edifier P100X desktop speaker delivers clear, natural sound that will satisfy even the most demanding users. You can connect it to the device of your choice via the Line In input or Bluetooth 5.0. It comes with a Transparent cable and a wooden casing that gives it a very elegant character. It also comes with a practical remote control.

Stunning sound

What makes P100X sound so good? It is equipped with the patented AIRPULSE "Air-Blade" tweeter and a 4.5-inch midwoofer with an aluminium cone. This allows it to deliver crisp highs, ear-pleasing mids, and deep bass. Moreover, the digital amplifier guarantees low distortion and the Transparent cable is responsible for excellent signal transmission quality. Discover the magic of music anew with Edifier!

Multiple connection possibilities

You decide how to connect your devices to the speaker. The available Line In input enables a wired connection. Or you can use the modern Bluetooth 5.0 connection to enjoy reliable wireless transmission. The P100X speaker is equipped with the QCC3031 chipset and supports the aptX HD codec to offer a fast and stable connection. Forget about delays and poor signal quality!

Elegant design

The Edifier P100X not only delivers excellent sound quality, it can also be a fantastic room decoration. It features an elegant design that is sure to appeal to lovers of retro style. Wooden casing made of MDF board is eye-catching and looks great. The device is also equipped with easy to use knobs that not only turn it on and off, but also adjust the volume, treble and bass. With Edifier you have full control over the sound!

Remote control included

You don't have to get up from your couch or armchair every time to operate this speaker. It comes with a special remote control that gives you convenient access to the most important functions. For example, you can turn the device on, turn it off, mute it, adjust the volume, pause or resume playback, switch songs, and select an audio source. See for yourself how convenient it is!
