Edifier HECATE G1500 2.0 Speakers

Edifier HECATE G1500 2.0 Speakers are the perfect choice for gamers and beyond. The full-range 2.5" drivers guarantee clear, richly detailed sound, and the H+ sound effect will give you an unforgettable gaming experience. You can also choose from 3 playback modes and 12 types of RGB backlighting. The speakers also stand out for their wide compatibility and support 3 ways of connection - via Bluetooth 5.3, as well as via USB or AUX 3.5mm cable.

Sound at the highest level

With a 2.5" driver and a peak output power of 5W + 5W, the G1500 speakers can deliver detail-saturated, delightful sound, crisp treble and deep bass. Also noteworthy is the special H+ effect, which emphasizes the sound of footsteps and gunshots - an ideal option for gamers! Now you can easily hear incoming opponents and anticipate their movements.

Unique design

Are you looking for speakers that will emphasize the character of your gaming area and complement it perfectly? The HECATE G1500 are sure to please you! They are equipped with colorful RGB backlighting, the style of which you can customize according to your preferences, choosing from 12 available effects. Now you can easily create a unique atmosphere! The speakers are also distinguished by their original hexagonal shape. They also have built-in small buttons for convenient operation.

3 playback modes to choose from

These unique speakers are perfect for a variety of scenarios. They offer 3 playback modes to choose from, so you can tailor their performance to your expectations. Music mode will be suitable for listening to music - it will highlight the most beautiful things in your favorite songs. Movie will give you an even more interesting experience while watching movies and TV series. Game is a fantastic option for gamers - it will allow you to raise the level of immersion and enjoy the gameplay even more.

Wide compatibility - 3 connectivity options

It doesn't matter what equipment you use most often - the G1500 speakers will provide you with high quality sound in almost any situation. What sets them apart is their wide compatibility - using a 3.5mm AUX cable, you can easily connect them to your phone, computer, iPad or even Nintendo Switch or XBOX console. A USB cable will allow you to connect them to your laptop or PlayStation 4. Prefer a wireless solution? You can pair the speakers with your smartphone, laptop or tablet using Bluetooth 5.3, which guarantees fast, stable and reliable transmission.
