Edifier GM260 wired in-ear headphones (black)

Edifier GM260 headphones offer high quality Hi-Res sound and comfort. What's more, the remote control integrated into the cable provides convenient operation. The product is compatible with iOS and Android, and the well-thought-out design guarantees the durability and strength of the product. In addition, the omni-directional microphone is responsible for high quality conversations.

Excellent sound

Enjoy a wealth of details with Edifier headphones. The GM260 have received Hi-Res certification, ensuring the highest sound quality. What's more, the 10mm titanium drivers are responsible for ear-pleasing treble and crystal clear sound. In addition, the use of aluminum alloy emphasizes the midrange and deep bass. You will easily hear the footsteps of an approaching enemy and avoid an attack.

Carefully considered design

The headphones have been designed with attention to detail, so they excel in reliable performance. The aluminum alloy components have undergone a CNC process, which translates into high quality workmanship and better sound. What's more, the cable was created from TPE plastic and is resistant to cracking and wear.

Wide compatibility

The Edifier GM260 features a 3.5mm port, which translates into wide compatibility of the device. They work with iOS and Android, so you can successfully connect them to your smartphone, iPad, laptop, computer, Nintendo Switch, etc.

Long-lasting comfort

Use the headphones for long periods of time and don't worry about feeling tired or uncomfortable. The ergonomic design and 55° angle make the GM260 fit perfectly in your ears and won't fall out. In addition, the set comes with overlays in different sizes. They are made of skin-friendly materials and allow you to adjust the headphones to your needs. In addition, they effectively suppress ambient noise, allowing you to focus on the gameplay.

Convenient operation

This is not the end of the advantages of the Edifier GM260. The headphones have a remote control integrated into the cable, with which you can customize their operation. Conveniently adjust volume, pause/resume playback, answer/reject calls and skip songs. Now you have access to the most important functions at your fingertips.
