Speakers Edifier HECATE G2000 (red)

Ref: 6923520268566

Edifier HECATE G2000 (red) speakers.

Opt for professional gear and enjoy great sound while gaming, watching movies and listening to music. Edifier HECATE G2000 2.0 speakers are distinguished by their compact size, 32W of power, excellent sound quality and gaming RGB backlighting. With three playback modes, the speakers will work well in a variety of situations and will serve the whole family.

Marvel at the sound quality

What makes the speakers deliver such high quality sound? They're 2.75-inch drivers with a composite diaphragm, an RMS of 16W and a peak power of 32W. In addition, the speaker angle is 10° and the 0.65L isometric cavity provides an even better sound experience. So bet on the G2000 and enjoy clear sound and perfect harmony of bass and treble.

Useful in a variety of situations

The G2000 speakers offer up to 3 playback modes, so they will adjust the sound parameters to what you are currently doing. So you can choose from Gaming, Movie and Music modes and enjoy optimal sound during a gaming session, a movie night or a Friday night gathering with friends.

Striking RGB backlighting

The G200 is an ideal choice for all gamers. The speakers are equipped with interesting RGB backlighting, so they will perfectly complement any gamer's workstation. Importantly, they offer as many as 12 different lighting effects, so you don't have to worry about boredom. In addition, high quality sound will allow you to hear every move of your opponent.

Connect the way you like

The speakers have several input ports, so you can decide how to connect them. For example, you can use a USB or AUX 3.5mm cable and enjoy a reliable wired connection. The speakers also support Bluetooth 5.1, so you can connect them wirelessly and reduce the number of cables on your desk. The choice is yours.

Tailored to your needs

The Edifier HECATE G2000 are distinguished by their outstanding functionality and carefully considered design. They feature several buttons so that you can conveniently manage such functions as RGB backlighting effects, sound effects and Bluetooth connection termination. What's more, the speakers have non-slip pads, and the matte panels add a chic and elegant touch.
