Edifier Airpulse A100 speakers (white)

Experience how great your favorite songs can sound. Edifier A100 speakers are designed to deliver perfect sound quality certified by Hi-Res. Several available ports and Bluetooth 5.1 support make it possible to connect a wide variety of equipment - either via cable or wirelessly. At the same time, the devices look extremely elegant. The lacquered casing gives them a delightful, stylish character. In addition, the set comes with a remote control, with which you can remotely control the A100.

Delightful sound quality

Discover your favorite tunes in new and better quality. Made of aluminum, the ribbon tweeter is equipped with a specially designed horn. The A100 speakers also have a 5-inch overhead woofer with an anodized aluminum cone. So you can enjoy a perfectly balanced, richly detailed sound. Want more? The speakers also have an additional port that allows you to connect an external subwoofer (not included).

Forget about distortion

Say goodbye to distortion and flat, poor-quality sound. Edifier A100 speakers offer dynamic control that works with digital signal processing (DSP) technology. They also have a digital Class D amplifier and an advanced XMOS processor. All of this has made it possible to deliver stunning, crystal-clear sound. Turn on your favorite playlist and let yourself be swept away by the magic of music!

Many connection possibilities

Now you can easily connect the sound source of your choice to the speakers. The A100s are equipped with several ports such as AUX, PC, optical and USB. They are also compatible with a wide variety of devices. Prefer to be free of cables and gain almost unlimited freedom? No problem - just connect to the speakers wirelessly! The A100s support Bluetooth 5.1 for reliable, fast and stable transmission.

Modern design

Are you looking for speakers that not only provide you with the highest quality sound, but also perfectly complement the design of your chosen room? Edifier A100 will work perfectly! Finished with high-grade piano lacquer housing gives them an extremely elegant, yet modern character. Place them, for example, in your living room or study and get a functional yet stylish addition to your decor!
