Edifier W820NB Plus Wireless Headphones, ANC (black)

Just you and your favorite songs. The Edifier W820NB Plus headphones are equipped with dynamic 40mm drivers for crystal clear and richly detailed sound. I use hybrid ANC noise cancellation technology, which effectively reduces noise to as low as -43 dB. The built-in microphones allow for unobstructed conversations, with a runtime of up to 49 hours. The carefully thought-out design ensures dreamlike comfort.

Fall in love with music all over again

Immerse yourself in the sounds of your favorite songs. The W820NB Plus have built-in LDAC codecs and have been certified for Hi-Res Audio, meaning they meet the highest audio standards. They also feature 40-millimeter drivers with a titanized composite diaphragm, which, combined with hybrid ANC technology, will allow you to fully focus on the beautiful music you're playing. With the W820NB Plus, you'll feel like you're at a concert anywhere!

Talk on the phone wherever you want

Make phone calls even in extremely noisy places! The headphones have built-in microphones that will reliably record your voice. Noise cancellation technology effectively suppresses ambient sounds or wind noise. Now nothing prevents you from talking in a crowded shopping mall or bus.

With different users in mind

Freely choose from the available modes and adjust the headphones' performance to your expectations. Ambient Sound mode allows you to listen to your favorite songs without losing touch with your surroundings - no more worries about missing an important announcement at the train station! Edifier has not forgotten about gamers either. The headphones offer a special gaming mode, which guarantees ultra-low latency of 0.08s. Now you won't be caught off guard by your rivals and you'll get more victories!

Unparalleled comfort for a long time

The Edifier W820NB Plus headphones are designed to provide the maximum level of comfort. The soft earcups fit perfectly around your ears without causing uncomfortable pressure even during long hours of use. The adjustable headband will allow you to easily adjust the headphones to your needs. In addition, the headphones impress with a modern, minimalist design, which is sure to appeal to many users.

You choose how you listen

Listen to music the way you like it. The W820NB Plus can work both wirelessly and wired. They use reliable Bluetooth 5.2, which is responsible for a stable and fast connection to the device of your choice up to 10 meters. You can also use the USB cable that you will find in the set and conveniently connect the headphones to your computer!

Up to 49 hours of operation

Now you can play music for as long as you want without worrying about your headphones draining quickly. The built-in 400 mAh battery provides up to 33 hours of use when ANC mode is on or up to 49 hours when it's off. Thanks to the fast-charging feature, it only takes 10 minutes of charging for you to use the headphones for another 7 hours. An LED light indicator will inform you of the charging status.

Everything at your fingertips

No longer do you have to reach for your smartphone every time to turn up the music or answer the phone! The W820NB Plus has been equipped with several practical buttons for easy operation. Using them, you can conveniently change songs, adjust the volume, manage incoming calls, and choose from available modes. Find out how easy it is!

Even more possibilities

Want to gain access to additional headphone features? Download the free Edifier Connect app - you can find it in both the Google Play store and the App Store. Using it, you can, among other things, check the battery charge level, change modes or adjust EQ settings. There are also specially prepared nature sounds at your disposal to help you relax after a hard day.
