TWS Edifier W100T headphones (black)

With the Edifier W100T headphones you will fall in love with your favourite songs all over again. The headphones have 13-millimetre dynamic drivers that are responsible for fantastic sound quality. The built-in microphones combined with noise cancellation will allow you to talk freely on the phone even in crowded places. They offer a game mode and last up to 7 hours on a single charge. The ergonomic, lightweight and compact design of the headphones guarantees dreamlike comfort.

Let your music sound like never before

Get carried away by the sounds of your favourite songs with Edifier. The large, dynamic 13 mm drivers provide a wide soundstage and balanced sound. The headphones will wow you with powerful and deep bass and clear sound with the smallest details. Now you can feel like you're at a real concert of your favourite band, without leaving your room!

Clear conversations in all conditions

Do you travel a lot on public transport? Or do you want to talk freely on the phone while shopping in a crowded shopping mall? Now nothing can stop you from talking! The Edifier W100T features high-quality microphones that capture your every word with precision. They also use advanced noise-cancelling technology to effectively eliminate outside noise and further amplify your voice and improve clarity.

Fast and stable signal transmission

Edifier headphones support innovative Bluetooth 5.1 technology, which offers a fast, stable and reliable connection to the device of your choice with a range of up to 10 metres. What's more, each headphone connects to your device independently, so you can easily use both at once or just one - the choice is yours!

For gaming enthusiasts

Edifier did not forget the needs of gamers when developing the W100T headphones either! A special gaming mode guarantees extremely low latency, allowing you to enjoy perfect image-sound synchronisation. So you can easily hear your opponent's footsteps and anticipate their movement, securing your next victory!

Just one touch

No longer do you have to reach for your phone every time to change a song! The Edifier W100T headphones have built-in touch panels that make it easy for you to access the most important functions. You can use them to control your music player, skip songs or manage calls. What's more, the headphones are compatible with the intelligent voice assistant - just hold the headphone down for about 3 seconds to activate it!

Lightweight and compact

The headphones have been designed for maximum comfort. The carefully designed construction of the headphones ensures that they fit perfectly in the ears and do not fall out. Their ergonomic design ensures dreamlike comfort even during prolonged use. They are also IP54 waterproof - so you can easily use them during an intense workout or a walk on a rainy day without worrying about damaging them.

Up to 28 hours of operation

Worried about your headphones unexpectedly running down during a workout at the gym or a long journey? Don't be! The W100T can run continuously for up to 7 hours. You'll also find a charging case included to extend their runtime to up to 28 hours.
